### Of Interest to School Teacher.

The following circular has just been issued by the Superintendent of public instruction for the territory:

Examinations of applicants for teachers' certificates are held in each county of the territory on the last Fridays of August and November.

All applicants receiving a general average grade as high as 90 per cent, with no grade in any branch lower

than 70 per cent, shall receive a first class certificate. Those receiving a general average grade as high as 70 per cent, with no grade in any one branch lower than 60 percent, shall receive second class certificates.

Before being permitted to teach, they must also produce a certificate of attendance upon some county or city institute or summer school held within the Territory.

Applicants for second grade certificates shall be examined in arithmetic, geography, orthography, reading, grammar, history, physiology, elementary pedagogy and penmanship.

Applicants for first grade certificates shall be examined on the above named subjects and also civil government, elementary physics, elementary algebra advanced pedagogy, and elements of zoology and botany.

Certificates and diplomas issued by colleges outside the territory will not be recognized.

## NARROW ESCAPE

Careless Employee and Gasoline can Came near Causing Destruction of Ice Plant.

Last Thursday evening an employee at the Ice Plant started to fill a lantern from a gasoline can and the result came near being a serious fire. The fire was soon extinguished as nothing but the gasoline caught fire and that was soon smothered out with wet cinders, however, the alarm was given before the extent of the fire was discovered and a crowd of excited people who gathered at the works knocked a prop from under the heavy blow off pipe allowed to fall and break the connection with the boiler and deluding the place with steam and hot water from which nearly all the employees at the works were somewhat scalded and the works compelled to shut down for that night and did not get started till noon Friday. As usual in such cases an incident occurred which while terrible at the time, proved very laughable after it was over. An unexperienced employee was caught in a corner back of the boilers and his escape cut off by the steam and hot water, the only place at which he could get out, being a small hole in the brick wall which was only large enough to put his face to, while he was in no real danger he was screaming at the top of his voice and the supposition was that he being burned alive and Messrs. Stecker and Brown worked for dear life digging away the brick so that he could be drawn out and when the opening was made large enough to get him through it was found that he was only slightly injured. This incident over the crowd dispersed and the work at the plant went on as usual. Mr. Stecker states that he feels very thankful that no one was hurt and also for those who rendered valuable aid in extinguishing the fire.

### Will soon Begin Work.

Judge Seaman Field of this place, who has been corresponding with General Manager Young of the California Short line railway, in regard to securing the right of way through the town received the blue prints last Wednesday and was informed by Mr. Young that all was in readiness to begin grading as soon as these preliminaries can be arranged. The route is mapped out just south of the Southern Pacific road and

The Merchant may have an air ship to bring lumber from the Mills; Carry goods to foreign markets, or gather treasure from the hills. And "Uncle Sam" its use employ to transport the trooper; But for the ranchman's general use, he prefers the "COOPER"

will have depot and yards convenient to the other roads and no doubt will in time run its trains into the union depot.

This road is what is generally known as the Alamogordo Deming cut off, and it is claimed to be an independent line but be this as it may it will be a direct connection with the Rock Island and will be a great benefit to Deming in the way of reducing freight rates and our people should do all in their power to give such inducements as they ask to secure the immediate construction of the road.

### Cures When Doctors Fail.

Mrs. Frank Chaisson, Patterson, La., writes June 8th, 1901: "I had malaria fever in a very bad form, was under treatment of doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then I bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine 50c bottle at J. P.
